Re: Request for Certificate of Compliance
13 Blackstone Street, Mendon MA 01756
JDE Project Number: 02-2019-047

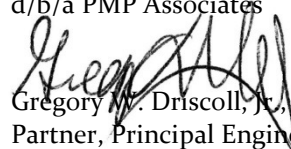

Dear Commission Members:

On behalf of our client, Margit and Simon Price of Simar House, Inc., we respectfully request that the Commission issue a Certificate of Compliance for the above referenced property. The work to construct a septic system repair, shed and driveway extension approved by the Mendon Conservation Commission in an Order of Conditions issued on April 1, 2020. Jacobs Driscoll Engineering, Inc. d/b/a PMP Associates visited the site on June 26, 2020 to perform the as-built survey and observed that the site was constructed in substantial conformance with the approved plan.

Therefore, the results of my review are that the work was performed in substantial conformance with the intent of plan. As of the writing of this letter, the disturbed areas have been loamed and hydroseeded. Until the lawn is fully established, the erosion controls will remain in place and maintained.

Please contact me immediately at 508-928-4400 or 508-378-3421 if you have any questions or require additional information.

Thank you,
Jacobs Driscoll Engineering, Inc.
